

OPERATOR INSTRUCTIONS

Clean Care Shield is a Powerful Multi-purpose High Concentrate Cleaning Solution

***Clean Care is specially formulated for use on a multitude of surfaces and can be used for both deep cleaning and general maintenance.**

*** Always test on an inconspicuous area first before continuing**

Clean Care can be applied via:

Trigger spray bottle, Back pack, Pump sprayers, Brush, Cloth, Mop and Bucket, carpet cleaner, pressure washer, tank scrubber, scrubber dryers or any other convenient means

***Always start with the lowest dilution and increase concentration until desired effect is achieved.**

***Always wear protective chemical resistant gloves / safety goggles and clothing when using cleaning products.**

***Always fill the spray bottle, bucket or tank with water first before dispensing the product. This will prevent the product from over foaming.**

General Maintenance Cleaning:

15ml in 750ml trigger spray bottle- Spray the product on to the surface and leave for 30 seconds then begin cleaning- clean with damp micro fibre cloth and buff dry. 15ml of concentrate is the minimum dilution rate for disinfection applications.

Medium Soiling:

30ml in 750ml trigger spray bottle- Spray the product on to the surface leave for 30 seconds then begin cleaning- clean with damp micro fibre cloth and buff dry

Heavy Soiling:

60ml in 750ml trigger spray bottle- Spray the product on to the surface leave for at least 2 minutes then begin cleaning- You may need to repeat the process if ingrained soiling is present, clean with damp micro fibre cloth and buff dry. Use a stainless steel safe scourer or retractable scraper if required to remove heavy grease deposits or ingrained dirt.

Food preparation areas:

Spray the product and leave for 30 seconds, damp wipe removing all debris and chemical residue to ensure food safety, repeat process if required. Rinse thoroughly.

VIRUCIDAL: BS EN 14476:2013 + A2:2019 Effective against Enveloped Viruses, Coronavirus and SARS-CoV2.

BACTERICIDAL: BS EN 1276-2009 Effective Against MRSA, E.coli, Salmonella and Aeruginosa. For maximum disinfection applications, and where practical, a 30 second contact time will maximise results.
